# I N T R O D U C T I O N

Welcome to MultiPlanetary Inus! We would like to give a galaxy sized thank you to each and every member of our community and to our future token holders, game players, and believers. Without any of you, this would not be possible. We have received an incredible amount of interest in what we are doing and have leveled up our team in preparation to guide ourselves and our followers for the amazing opportunities that lie ahead.

A quick subject to touch base on is the launch of our new contract, V3. The previous contract accumulated taxes in the form of the token itself which created a very subjective wallet for those looking to invest. It also hurt our contract price when we needed to fund more game development or marketing. Our V3 contract eliminated this concern and as an extra measure of investor security we implemented buy backs to show we want everyone to thrive in our ecosystem. V3 has already proven favorable and we will continue to deliver as we promised!

## Purpose

It's no secret. We have diligently been working on a MultiPlanetary Inus P2E game designed for multiplayer combat and planetary take overs. We have created the first Meme aggregated Metaverse that aims to combine all of our beloved crypto pups (Inus) to coexist and cause chaos in an endless universe of possibilities. This universe will grow, you all will inspire the possibilities that are coming. We will perfect and tailor this experience in the hopes that one day we may pass on everything we've done, to you, our community (in true Ready Player One fashion) so that this Metaverse can evolve further and thrive forever!

## Today

The MultiPlanetary Inus game has already been developed into a functional and playable game. A BETA version of this is due to be released in Q2 of 2022. The community can expect this release to primarily focus on the combative elements of the game and include some of the top Inu leaders we know today. Shiba Inu, Floki Inu and Saitama Inu.

The game will also include Inu Armies. Each Inu Army will have its own planet/world that respects the unique ecology of the Inus area. Expand your forces, create new alliances and wage war on anyone or anything that stands in your way. The universe will continue to grow accordingly and so will the powers that come it!

## Soft Summary

\$INUS is the token of MultiPlanetary Inus. We are the first ever MMORPG to unify the top meme coin communities. We are excited to take over the Inu universe and become the most powerful Metaverse for Memes. We show no signs of slowing down and hope one day we can pass down our legacy to our community. Thank you everyone for your incredible and continued support while we create these Multi-Planetary spacefaring civilizations. More official releases and surprises right around the corner. We've only just begun!

WHO CONTROLS THE MEMES, CONTROLS THE UNIVERSE.

-ELON MUSK-

- Meme Tokens have huge followings
- Typically bought without DAR\*
- More Meme currencies developed everyday
- Memes make money

*The origin of crypto can be traced back to 1998 when people began realizing how much power banks have over our money supply. Crypto was a belief that people could technology to create a digital gold to protect themselves from inflation. Bitcoin kicked us off in 2009 with many other crypto currencies to quickly follow suit. One of which was created as a joke to purely poke fun at the use of cryptocurrencies.*

## DOGECOIN

*The first cryptocurrency meme that proved that value is created by the people and not by its utility. Dogecoin in a way made cryptocurrency less intimidating and because of this it drew a crowd of investors who felt eased by not having to research their investment. After the unintentional success of Dogecoin came a flurry of meme attempts. The next Wildly accepted coin was Shiba Inu, followed by Saitama Inu and Floki Inu. The fire that fuels the Inu currencies is an unimaginably sized following of degen enthusiast that grows bigger every day. Our plan is to engage with this audience and appeal to them by incorporating their Inu communities and other top Inu communities into our MultiPlanetary Inu Metaverse.*

## What the hell is the Metaverse?

The Metaverse will undoubtedly be one of the biggest shifts in social interaction unlike anything we have ever seen. The virtual technology and capabilities that have been developed are rapidly becoming utilized to change the way we see, work, and even enjoy life. What makes the Metaverse more exciting is its ability to connect every virtual place or possibility seamlessly to each other. Basically, the Internet on steroids. An Ultranet. Instead of surfing the web for movies, games, music, news or social platforms, you will be able to immerse yourself into these environments and feel as if you are there. You will be a part of the environment! It never pauses, it never stops moving, it continues indefinitely and happens in real time.

*The next couple of years are going to be insane. The Metaverse is undeniable happening and we are making the most of this opportunity to build within its precious beginning. We are creating our own little slice of paradise while were ahead of the game and we are excited to be able to bring all of you with us!*

# THE METAVERSE

- It's a Super Link to Everything Virtual
- Fully Immersed Environment
- Shift in Social Interaction
- Continues in Real Time
- Environment for new Income Opportunities

## MULTIPLANETARY INUS VISION

Games have exploded over the last decade and have become easier for all generations to participate in. Gaming will undoubtedly have a huge calling in the Metaverse. We are developing a game that aims to be the center hub for all the Meme Cryptocurrencies that have come to light. Our Metaversal path will be linking these Meme Cryptocurrencies and incorporate income opportunities through our game play. \$INUS will be the first implemented currency of the game that will be tradable for in game and out of game assets. The currency can be purchased, traded and most excitingly, earned! As the game grows and more successful meme coins rise, we will try to work with those teams and communities to introduce them to our game to create more environments, worlds and characters for our game. The possibility of implementation is theoretically endless.

# NFT's

- Whitelist Passes for Presale Access
- Passes Tradable on OpenSea
- 4 Different Tier Access
- NFT In-Game Utility
- NFT Community Perk Utility
- Multiple NFT Drops
- Community NTF Input
- Gold and Silver Pass Drop coming soon

Our NFT's will be tradable assets on OpenSea and will be integrated into the gameplay. The utility of the NFT's will vary but will be boundless in means of possibilities, inside and outside the game. We know we will gain a large interest in our first collection by dropping [QUANTITY REDACTED] of [COLLECTION NAME REDACTED].

The popularity of NFT's has boomed and we see no signs of these assets slowing down as they become more and more utilized for Metaverse and real-world use.

# DEATH TO TAXES

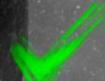

WE HATE TAXES AS MUCH AS THE NEXT GUY. HERE IS OUR PLAN TO  
CREATE A TAX FREE MULTIVERSE!

~~EIGHT PERCENT~~

~~REDUCED ON VALENTINE'S DAY  
BECAUSE WE LOVE YOU GUYS~~

SIX PERCENT

SIX HUNDRED HOLDER  
THRESHOLD 

THREE PERCENT

TWO THOUSAND HOLDER  
THRESHOLD

ZERO PERCENT

TO BE DETERMINED

We started this journey with a 10% tax on transactions. We love the community we've built so for Valentine's Day we reduced it to 8%.

We've recently hit a new milestone of 600 holders and as promised we reduced our taxes down to 6%.

As gears keep turning and this machine begins to drive more effortlessly, we plan to remove taxes completely. They are only necessary for the moment. Never forever.

## The Tax Man Has A Tax Plan

**Total Supply:  
500,000,000,000,000**

**Liquidity is locked for 1 year.**

**6% deducted on all buys and  
sells. Used for marketing,  
development, and buybacks.**

The background of the top section is a space-themed image. On the left, there's a view of Earth from space. In the center, a white planet with rings (like Saturn) is partially visible. On the right, there's a view of Earth from space with a purple and blue color cast, and next to it is a detailed view of the Moon's surface with many craters. The text 'ROAD' and 'MAP' are in black boxes on the left side.
